interactive. I loved it!"

"..This was the BEST and most useful training that I've had. I leave feeling fully ready to improve instruction and motivated to teach the course. I am in the US, so beginning so early on my time was tough (4am), but the training was of sufficient quality to justify that. "

"One of the most impactful workshops that I've had in a long time."

"The prospect of the training for 3 days on zoom was not an appealing one, however, Chris' approach, content and delivery ensured it was a really valuable and enjoyable experience "
